

FOR IMMEDIATE RELEASE:

May 8, 2024

Renovations Are Complete

Since May 2023, Surry County Health and Nutrition Center has undergone extensive renovations to improve efficiency and create a welcoming atmosphere for all. We are proud to announce that the renovations have been completed and clinics will begin to move back to the ground floor of the Main Building.

In order to complete the move, the following clinics will be closed on **Thursday, May 16th**:

- Lab and Immunizations
- Adult Primary Care
- Adult Behavioral Health
- Women's Preventative Health

Additionally, the following clinics will be closed on **Friday, May 17th** for moving day:

- Women, Infants, and Children (WIC) Program
- Medical Nutrition Therapy (MNT) Program
- Diabetes Self-Management Education and Support Program

Pediatrics and Dental will continue to operate in their usual location; however, starting May 20th, all of the other clinics including Lab, Immunizations, Adult Primary Care, Adult Behavioral Health, Women's Preventative Services, Women, Infants and Children (WIC) Program, Medical Nutrition Therapy, Diabetes Self-Management Education and Support Program will be located in SCHNC's Main Health building. Maps and signage will be clearly displayed throughout campus to assist patients in finding their destination. SCHNC will reopen for normal business hours, 8:15AM-5:00PM with early morning clinic appointments available starting at 7:30am for Main Health clinics, on Monday, May 20th, 2024.

We strive to provide our community with the best possible care and look forward to continuing that level of care in our newly renovated clinic areas. Stay tuned on our Facebook page (@SurryCountyHealthandNutritionCenter) and Public Health App for more information about an open house event to tour the updated clinic space. For additional information or questions, please call 336-401-8400.
