

SURRY COUNTY HEALTH & NUTRITION CENTER
118 HAMBY ROAD
DOBSON, NORTH CAROLINA 27017

FOR IMMEDIATE RELEASE:

RENOVATION AND LOCATION UPDATE

ATTN:

All current and potential users of the services of Surry County Health and Nutrition Center

On May 12th, 2023, our agency finished moving the majority of our staff and services to temporary locations for the duration of our renovation project. The renovation is a long-awaited project to address the efficiency of our services through layout as well as asset and personnel placement. Additionally, we are updating numerous components of our building that will address the efficiency of our HVAC system and other pieces that have degraded naturally over time (floors, paint, drywall, etc).

In the meantime, our clinical services have been relocated to our lower building and are being supported by a temporary unit. Clients and patients can find all of their clinics by checking in at the building labeled “Pediatric and Dental Clinic”, including WiseWomen, Behavioral Health, STD, Family Planning, Adult Primary Care, and Immunizations. Our dental clinic and pediatric clinic are still located in this area as well.

Our nutrition services are currently still in their current location but will very soon relocate to the third floor on the opposite side of our upper building. Clients and patients can access WIC, Diabetes Self-Management Education, Medical Nutrition Therapy, and similar services by using the elevator or stairs to access the third floor, and then check-in at the window. Staff will show clients and patients where to go from here.

Environmental Health will remain in the same location during this renovation.

Any questions regarding where to go or how to access services can find their answers using our main number 336-401-8400. Inquiries regarding the renovation itself can be sent to our Public Information Officer Austin C. Love: lovea@co.surry.nc.us.

GOOD HEALTH TO YOU!
